Eriez[®] Literature Features 10 High Speed Feeders

Erie, Pa. -- Eriez[®] AC-operated High Speed Feeders are featured in a free brochure offered by the company. Eriez' new brochure covers 8 AC-operated, high speed models, which are designed for exceptionally high feeding of light, bulky materials. According to the brochure, they provide greater economy and efficiency in feeding and filling, and are ideal for use in conjunction with many weigh scale and packaging machines.

These feeders are capable of moving a great variety of materials at speeds up to 60 feet (18 meters) per minute. Feed rate is adjusted by Eriez' variable solid-state type controller. The units are light and functional and can be installed easily in a minimum of space in conjunction with other equipment. Operation is virtually silent.

Eriez Models HSB-4, HS-10, HS-26, HS-36, HS-42, HS-46, HS-56 and HS-66 are described in detail. Specifications and drawings are included. Eriez' unique Spring System and Tuning are also explained.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through eleven international facilities located on five continents. For more information or to request Eriez brochure VB-3005, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
